Professional Summary

Automation QA Engineer with over 3 years of experience in both automation and manual testing. Holds a Master's degree in Computer Applications (MCA), providing a strong technical foundation. Skilled in managing multiple projects efficiently while maintaining high-quality standards. Possesses excellent interpersonal and communication skills, with the ability to collaborate effectively in multi-time zone, multi-region, and multi-cultural environments. Proven expertise in ensuring seamless software functionality through meticulous testing processes and an adaptable, results-driven approach.

Technical Skills

Automation Testing: Selenium WebDriver, TestNG, Cucumber, Maven, Jenkins, Gherkin, Extent Reports, XPath, Data-Driven Testing, Behavior-Driven Development (BDD), Hybrid Framework Design.
Manual Testing: Test Plan Creation, Test Case Design, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UAT, Black Box Testing, Ad-hoc Testing, Exploratory Testing.
API Testing: Postman, JSON.
Version Control: Git, GitHub.
Project Management Tools: Jira, Zoho Sprints.
Programming Languages: Java.
CI/CD Tools: Jenkins.

Work Experience – [3.2 Years]

1 – RatebotAi [Mumbai] | August 2024 - Present (1 Year 7 Months)

Project - CMS, PMS, BMS
Designation - QA Engineer
Domain - Hospitality
Technologies - Java, Selenium, TestNG, Cucumber, Gherkin, Zoho Sprints, Git.

- Designing, creating and implementing functional test cases related to modules.
- Single point of contact for QA activities, handling test planning, test execution, defect management and release validation independently.
- Executed **End-To-End Testing** across CMS, PMS, and BMS systems.
- Improved Test Coverage for critical workflows.
- Writing clear, concise, and comprehensive **test cases**.
- Automated regression test cases using **Selenium WebDriver** integrated with **Cucumber** for BMS.
- Initiated **automation scripts** for **Regression testing.**
- Experienced in **defect reporting**, **tracking** and **management** using **Zoho Sprints**.
- Ensuring a bug-free and working software has been delivered, prepared **test cases** and performed **UAT testing**.
- Created and executed **API test cases** using **Postman** and validated JSON responses.
- Performed **functional, regression, smoke, sanity, and exploratory testing.**

2 – SigmaSoft InfoTech Pvt Ltd [Bangalore] | Jan 2023 – Jul 2024 (1 Year 7 Months)

Project - Sigmasoft's Internal Project
Designation - QA Engineer
Domain - HRMS
Technologies - Java, Selenium, TestNG, Cucumber, Gherkin, Jira, Git, Jenkins.

- Working as both an **Automation and Manual Test Engineer** on the **HRMS tool**.
- Development of automation scripts using **Cucumber Java Selenium framework.**
- Automated 80+ test cases **reducing regression time by 60%**.
- Integrated Selenium automation framework with **Jenkins CI pipeline** for automated test execution.
- Configured **Jenkins jobs** using **Maven commands** to trigger **TestNG** test suites.
- Writing and executing **manual test cases** by understanding requirements and covering acceptance criteria.
- Built **Hybrid Framework** using **Selenium + TestNG + Cucumber**.
- In-depth knowledge of **SDLC** and **STLC** processes.
- Experienced in **defect reporting, tracking,** and **management** using **Jira.**
- Strong understanding of **Agile methodologies** and **Scrum practices.**

Education Details-

- Completed **Master of Computer Applications** from Bharati Vidyapeeth, Navi Mumbai Affiliated to **University of Mumbai 2021 to 2023.**
- Completed **Bachelor of Science in Information Technology** from Mulund College of Commerce, Mumbai Affiliated to **University of Mumbai 2018 to 2021.**
- Completed **HSC** from Mulund College of Commerce, Mumbai in **2018.**
- Completed **SSC** from Shree Nagar Vidya Mandir in **2016.**

Personal Details-

- Languages known : English, Marathi, Hindi
- Place : Mumbai
